

## SBI PO Preliminary Grand Test –SPP-170461

### HINTS & SOLUTIONS

- 1.(3) Beyond just numbers;  
Beyond just numbers is the best title of the passage.
- 2.(5) None of the above;  
All the statements are true according to the passage.
- 3.(1) Ill only;  
"Reviewing the scope of the ombudsman scheme and educating customers on the procedures to lodge complaints, will ensure that grievances that do find their way into the redressal system get resolved effectively."
- 4.(3) Issuance of unsolicited cards is one of the woes of customers;  
"Customers have had a laundry list of woes regarding failure of withdrawals from ATMs, issue of unsolicited cards and insurance policies, and banks' non-adherence to 'fair practices' or BCSBI (Banking Codes and Standards Board of India) codes."
- 5.(3) abrupt;  
Steep means rising or falling sharply. So, abrupt is the word which is similar in meaning to it.
- 6.(2) compensation;  
Redress means remedy or set right. So, compensation is the word which is similar in meaning to it.
- 7.(5) abiding;  
Longstanding means having existed or continued for a long time. So, abiding is the word which is similar in meaning to it.
- 8.(3) endanger;  
Ensure means make certain that (something) will occur or be the case. So, endanger is the word which is opposite in meaning to it.
- 9.(2) easy going;  
Stringent means strict, precise, and exacting. So, easy going is the word which is opposite in meaning to it.
- 10.(4) whole;  
Chunk means piece of something. So, whole is the word which is opposite in meaning to it.
- 11-15. The correct sequence to form meaningful paragraph is CFDBAE.
- 11.(4) (A);
- 12.(2) (D);
- 13.(3) (F);
- 14.(5) (E);
- 15.(3) (C);
- 16.(1) Change 'dress' to 'dressed'.
- 17.(4) Change 'deterrent on' to 'deterrent to'.
- 18.(3) Change 'that it is not a' to 'that it was not a'.
- 19.(4) Change 'always the development imperatives was' to 'always the development imperatives were'.
- 20.(3) Change 'and mental agony who he had to suffer' to 'and mental agony which he had to suffer'.
- 21.(5) No correction required;
- 22.(4) Whatever the reasons;  
Replace 'Whichever reasons' with 'Whatever the reasons'.
- 23.(2) like being transported;  
Replace 'like be transported' with 'like being transported'.
- 24.(4) have paid little heed;  
Replace 'has pay little heed' with 'have paid little heed'.
- 25.(1) cannot wish away;  
Replace 'cannot wishes away' with 'cannot wish away'.
- 26.(5) longer
- 27.(4) costs
- 28.(1) maintaining
- 29.(3) instead
- 30.(2) where
- 31.(3)  $x = \frac{5}{3}, \frac{3}{2}$   
 $y = \frac{7}{5}, \frac{3}{2}$   
 $\Rightarrow x \geq y.$
- 32.(4)  $x = \frac{7}{4}, \frac{-8}{3}$   
 $y = 2, \frac{7}{4}$   
 $\Rightarrow x \leq y.$
- 33.(1)  $x = -\frac{4}{3}, -3$   
 $y = -4, -5$   
 $\Rightarrow x > y.$
- 34.(2)  $x = \frac{7}{8}, 1$   
 $y = 2, \frac{3}{2}$   
 $\Rightarrow x < y.$
- 35.(2)  $x = 4, y = 5$   
 $\Rightarrow x < y$
- 36.(5) Series is  $\times 3 + 2, \times 3 + 2, \times 3 + 2, \dots$   
Next number  $26 \times 3 + 2 = 80$
- 37.(1) Series is  $\times 1 + 1, \times 2 + 4, \times 3 + 9, \times 4 + 16$
- 38.(4) Series is  $\times 2 - 1, \times 2 - 1, \times 2 - 1, \dots$
- 39.(1) Series is  $\times 2 - 1^2, \times 2 - 2^2, \times 2 - 3^2, \times 2 - 4^2$
- 40.(3) Series is  $\times 0.5 + 0.5, \times 1.5 + 1.5, \times 2.5 + 2.5, \times 3.5 + 3.5$
- 41.(4) Let no. of students in class A, B and C be  $x, y$  and  $z$   
 $\therefore A = 83x$   
 $B = 76y$   
 $C = 85z$   
Now,  $A + B = 79x + 79y$   
 $B + C = 81(y + z) = 81y + 81z$   
 $\therefore 83x + 76y = 79x + 79y$   
 $4x = 3y$   
 $\frac{x}{y} = \frac{3}{4}$   
And,  $76y + 85z = 81y + 81z$

$$\frac{y}{z} = \frac{4}{5}$$

$$\therefore x : y : z = 3 : 4 : 5$$

$$\therefore \text{Required average} = \frac{83 \times 3 + 76 \times 4 + 85 \times 5}{12}$$

$$= \frac{249 + 304 + 425}{12}$$

$$= \frac{978}{12}$$

$$= 81.5$$

42.(3) Weight of the student who left the class =  $45 + 49 \times \left(\frac{1}{10}\right)$   
 =  $45 + 4.9$   
 = 49.9 kg

43.(4) equaled rate of interest for C.I. =  $4 + 4 + \frac{4 \times 4}{100}$   
 = 8.16

$$\therefore \text{Required amount} = \frac{80}{8} \times 8.16$$

$$= 10 \times 8.16 = 81.60 \text{ Rs.}$$

44.(3) water in mixture =  $\frac{15}{100} \times 200 = 30$  litres

Let required quantity of milk =  $x$

$$\frac{170+x}{30} = \frac{7}{1}$$

$$150 + x = 210$$

$$x = 40 \text{ litres}$$

45.(4) % pass in both the subjects =  $(60 + 70) - (100 - 20)$   
 =  $130 - 80$   
 = 50%

$$\therefore 50\% = 2500$$

$$100\% = \frac{2500}{50} \times 100$$

$$= 5000$$

46.(4) Total CP =  $10 \times 500 + 2000$   
 = 7000 Rs.

$$\text{Total SP} = 5 \times 750 + 5 \times 550 = 6500$$

$$\therefore \text{loss\%} = \frac{500}{7000} \times 100 = 7\frac{1}{7}\%$$

47.(2)  $\frac{7x}{5x+15} = \frac{7}{8}$   
 $56x = 35x + 105$   
 $21x = 105$   
 $x = 5$

$$x = 5$$

$$x = 5$$

$$\therefore \text{Required quantity} = 8 \times 5 = 40 \text{ litres}$$

48.(1) Total runs = 361 Runs

$$\therefore \frac{A}{B} = \frac{3}{2}, \frac{B}{C} = \frac{3}{2}$$

$$\therefore A : B : C = 9 : 6 : 4$$

$$\text{Runs scored by A} = \frac{9}{19} \times 361$$

$$= 9 \times 19$$

$$= 171$$

49.(1) Daily wages =  $\frac{800}{5} = 160$  Rs.

$$\text{Ratio of efficiency} = 2 : 1$$

$$\therefore \text{Required amount} = \frac{1}{3} \times 160$$

$$= 53\frac{1}{3} \text{ Rs.}$$

50.(2) Time taken by A to reach start point =  $\frac{900}{27 \times 5} \times 18 = 120$  sec

$$\text{Time taken by B to reach start point} = \frac{900}{36 \times 5} \times 18 = 90 \text{ sec.}$$

$$\text{LCM of 90 and 120} = 30 \times 3 \times 4$$

$$= 360 \text{ sec.}$$

$$\therefore \text{Required time} = \frac{360}{60} = 6 \text{ min}$$

51.(1) The expenditure increases consistently.

52.(1) It is obvious from the table.

53.(5) Social Welfare & Related areas

54.(4) Required percentage =  $\frac{24880 \times 100}{97500} = 2.5$

55.(3) Rs. 22040000000 ;  
 Expenditure on Education  
 = Rs (1530 + 2730 + 5890 + 7860 + 13360 + 25240)  
 millions  
 = Rs. 56610 millions

Expenditure on health

$$= \text{Rs. } (980 + 2140 + 2260 + 3370 + 7610 + 18210) \text{ Millions}$$

$$= \text{Rs. } 34570 \text{ millions}$$

$$\therefore \text{Difference} = \text{Rs. } (56610 - 34570) \text{ millions}$$

$$= \text{Rs. } 22040 \text{ million}$$

56.(1) Total runs scored by India and Australia in Match 4 together =  $270 + 190 = 460$  Total runs scored by England in all the five matches together =  $160 + 180 + 230 + 220 + 150 = 940$

$$\text{Required \%} = \frac{460}{940} \times 100 = 48.93\%$$

57.(3) Difference between Australia and England in

$$\text{Match 1} \rightarrow 260 - 160 = 100$$

$$\text{Match 2} \rightarrow 330 - 180 = 150$$

$$\text{Match 3} \rightarrow 310 - 230 = 80$$

$$\text{Match 4} \rightarrow 270 - 220 = 50$$

$$\text{Match 5} \rightarrow 300 - 150 = 150$$

The second lowest difference of runs scored was in Match 3.

58.(2) Total runs scored by India and England in Match

$$1 \rightarrow 160 + 320 = 480$$

$$\text{Match 2} \rightarrow 180 + 240 = 420$$

$$\text{Match 3} \rightarrow 230 + 270 = 500$$

$$\text{Match 4} \rightarrow 220 + 190 = 410$$

$$\text{Match 5} \rightarrow 150 + 220 = 370$$

Hence the third highest/lowest was scored in Match 2.

59.(4) 11 : 13 : 9 ;

$$\text{India scored in Match 5} = 220$$

$$\text{England scored in Match 2} = 180$$

$$\text{Australia scored in Match 1} = 260$$

$$\text{Ratio of India : Australia : England}$$

$$220 : 260 : 180$$

$$11 : 13 : 9$$

60.(2) Average =  $\frac{230 + 270 + 310}{3} = 270$

61.(2)

62.(3)  $650 + 1190 + 1599 = 3439.$

63.(4)  $1.5625 + 0.75 - 0.3125 = 2.0000$

64.(3)  $231 + 24 = 255$

65.(1)  $270 + 272 + 132 = 674.$

66-70.

**Input:** 'Only 40 people out of 85 like to change 30 to 70 percent result'.

**Step-I:** 'Change 30 only 40 people out of 85 like to to 70 percent result'.

**Step-II:** 'Change 30 only 40 to 70 people out of 85 like to percent result'.

**Step-III:** 'Change 30 only 40 to 70 of 85 people out like to percent result'.

**Step-IV:** 'Change 30 only 40 to 70 of 85 to people out like percent result'.

**Step-V:** 'Change 30 only 40 to 70 of 85 to result people out like percent'.

**Step-VI:** 'Change 30 only 40 to 70 of 85 to result percent people out like'.
